

**PURPOSE:** Allow students to decorate the walls of the halls in the dorms.

**INTRODUCED BY:** Danica Belingon

**BE IT RESOLVED BY THE MISSISSIPPI SCHOOL FOR MATHEMATICS AND  
SCIENCE SENATE:**

**SECTION ONE (REASONING):**

Over the course of last year until now, the ~~dormitories~~ **residence halls** have gotten a new look with renovations and new furniture with upgraded appliances. With the lobbies getting the decoration they deserve, this leaves the hallways feeling more barren.

Creativity is one of MSMS's ideals, so students should be able to decorate their area of the hall following the hall's theme. Students can already decorate their doors with posters or ribbons, etc., so why not also decorate the walls? This would make the hallways livelier, and the experience would act as a bonding experience with students on the hall and floor. Using creativity and taking time to decorate will also provide students an outlet if they are feeling stressed with school.

**SECTION TWO (PROPOSED ACTION):**

Around the start of every quarter, students may help decorate their hall using craft paper, tissue paper, and painters tape. The decoration should follow the theme selected by the RA of their respective floor.

**SECTION THREE (RESPONSES):**

Response 1 (Anonymous): "I know our RA is doing a tropical theme on our hall, so it would be really nice to also have some palm trees in between our doors."
