

PURPOSE: To further ensure the safety of MSMS students.

INTRODUCED BY: Jolanna Jackson and Rebekah Storment

BE IT RESOLVED BY THE MISSISSIPPI SCHOOL OF MATHEMATICS AND SCIENCE

SECTION ONE (REASONING):

It is ridiculous that many MUW students either don't know MSMS exists or are ignorant of our separation. Recently, we have noticed an influx of MUW students or other Hogarth patrons sitting on the MSMS side of the cafeteria. This would be a precautionary measure to prevent liability, as MSMS students should not have to worry about sitting among adult strangers.

SECTION TWO (PURPOSED ACTION):

We request that a larger sign be placed in the cafeteria, indicating that it is reserved for MSMS students and staff only. There could also be some type of indication when entering the dining hall before swiping cards.

SECTION THREE (APPENDIX)

Response One (Anonymous)

"I agree. I've only noticed them a few times, and they haven't caused any trouble. However, this could easily get out of hand."

Response Two (Brayden Smith, Senior)

"There has been an influx of MUW students sitting within the MSMS section in Hogarth Cafeteria. Considering that the majority of MSMS students are minors, this causes an obvious conflict between us and MUW students. The current signage is barely noticeable due to its awkward placement and small size. Better signage would help prevent such conflict by alerting MUW students to us being in a different section."
